The official pricing and release information for Autodesk's AutoCAD is available in the official documentation. Contents show] AutoCAD History AutoCAD was introduced as a desktop application for MS-DOS with a 30-day trial period in December 1982. It was priced at US$1,200, and the first full-time AutoCAD users graduated from one of Autodesk's Technical Training Centers (TTC) in 1986. The original version of AutoCAD was developed by Evans & Sutherland. Version 2 was released in 1986 and marked a major turning point in the company's direction. Version 3 was released in 1989 and marked a major turning point in the company's direction. Version 3 featured a full suite of CAD design tools including 2D drafting and 3D modeling. AutoCAD was originally available for $27,000 on mainframe computers, and later was available for $10,800 on minicomputers. Starting in the mid-1990s, Autodesk gradually moved from selling AutoCAD on mainframe computers to PC-based hardware and software. The first version of AutoCAD for Windows, AutoCAD R14, was released in 1995. AutoCAD Gold was released for Windows in January 1997. In addition to the Windows version, AutoCAD Gold had an option for the first time to run on a multi-user workstation with the same features as the Windows version, and at the same price. The three operating systems (Mac, UNIX and Windows) were all branded under the AutoCAD R banner. AutoCAD R12 was released as the next version of AutoCAD in 1998. The Windows version of AutoCAD Gold was discontinued on July 31, 2002. In April 2004, Autodesk released AutoCAD 2004 under its new product name, AutoCAD LT. It was originally only available in a Windows version, but has since been available in UNIX, Mac OS X, and iPad versions. AutoCAD LT is now available at an annual subscription of $395, $539 and $739 for Academic, Individual and Professional, respectively. A perpetual license for AutoCAD LT was available for an annual subscription of $1,399, but is no longer available. AutoCAD LT was discontinued in February 2017. AutoCAD's most famous architect was William Henry Johnson, who was commissioned to draw the plans for the World Trade Center after
